

## **Skål International Malaga-Costa del Sol Important Tourism Prize, the event that united the Port with Skål International**

Two important teams, fully dedicated to tourism, merged in an unparalleled event.

On 26 October, Skål International Malaga-Costa del Sol and the Port of Malaga celebrated the good work being done to promote and enhance tourism in the city. Skål International Malaga-Costa del Sol, by awarding the Important Tourism Prize, recognised the Port Authority for the valuable work it does. For its excellent investments in infrastructure, the port of Malaga is currently receiving the largest number of cruise passengers in Andalusia, a total of 10 million visits a year.

Daniel Yagüe, president of Skål International Malaga Costa del Sol, presented the award to Mr. Plata Canovas, who, in a brief speech, detailed the different projects that the Port has proposed to position Malaga in the world, as a reference for mega yacht circuits and high and medium priced cruises.

The Royal Mediterranean Club was the setting for the union of the entities: Skål International and Puerta de Malaga. A merger that tourism, the city's main economic driving force has made possible. Authorities and professionals from the sector joined the celebrations where tourism was the undisputed protagonist in all its splendour.
